

**Trawden Seven**  
**Report by Stephen Chew**

Sunday saw race 10 in the Pendle and Burnley Grand Prix. Once again, it turned out to be between the two leaders, Jimmy Craig and Marc Hartley. By the cattle grid at the top of Trawden, it was these two followed by Nick Treitl in close attendance. Marc had pulled an advantage of 20 yards by Wycollar, but a group of sheep put paid to his advantage. With them neck and neck at the bottom of the long drag back up to the main field, Marc managed to open a gap of about 25secs and secured the valuable 1st place. It's not over for young Jimmy yet as he's a tough little bugger and could quite easily turn it around in 3 races. Nick Treitl managed to keep 3rd spot with Andy Berry helping to secure the team prize with a 17th place finish. It's the trio's 2nd team prize in 4 days. Sarah Tipler was running with a turned ankle and suffered all the way round, but managed to take 1st place with Lorraine Slater finishing 3rd and 1st vet 40 lady. There were other good performances on the day with Jean Rawlinson tightening her grip on the vet 60 category with another 1st being the highlight. It's also very encouraging to see the ladies out in force. The ever improving Andy Driver had another good run as well on a day full of positives for the club. The juniors were also in attendance with Harley Treitl, Aaron Slater, Zach Beresford, Ruby Beresford and Tabitha Berry all competing in the junior races making it a great family day out as well.
